

A circular wreath of botanical illustrations surrounds the central text. The wreath includes various plants: a large red leaf, a green leaf with a white flower, a fern frond, a cluster of yellow flowers, a large green leaf, a red leaf, a purple flower, a green leaf with a white flower, a fern frond, and a cluster of small pink flowers.

# Conservation Conversations

With Opal, a Virginia opossum

---

# Spartanburg Soil & Water Conservation District

*Promoting the wise and responsible use of our  
natural resources through education,  
demonstration, and technical services for the  
benefit of all citizens of Spartanburg County*

# Soil & Water

**Resources:** things that are very valuable

Why are soil and water valuable?

What are other resources?

# Conservation

To protect from harm or  
destruction

And prevent the wasteful  
over use of a resource.

# How Does Conservation Work?

Lets say we  
are going to go  
for a hike in  
Croft State  
park...

# How Does Conservation Work?

We are going to bring water bottles, right?

# How Does Conservation Work?

Here we  
go! So  
much fun!  
Drink water  
now???

# How Does Conservation Work?

How about  
now????

# How Does Conservation Work?

NOW???

# How Does Conservation Work?

NOW???

# How Does Conservation Work?

If we  
**CONSERVE**  
our water, we  
can finish  
strong!

# Our Resources

Can we CONSERVE them?

SOIL

PEOPLE

PLANTS

*AIR*

*SPACE*

# Opossum

What do you already know about Opossums?

- What do they eat?
- What do they drink?
- Where do they live?
- Is it hard for them to find air?

Lets Meet Opal!

# Conservation for Opal

FOOD

WATER

SHELTER

SPACE

AIR

# Conservation for US!

SOIL

# AIR

We CAN!

All of us together can  
CONSERVE!

Do what you can, when you can!

Thank you
